

**REMARKS**

The application contains claims 27-67. Claims 1-26 and 68-96 have been canceled. Claims 27, 29-31, 33, 36, 42, 43 and 51 are currently amended.

Applicant selects Group X for examination. While applicant has elected Group X (claims 66 and 67), independent apparatus claims 42 and 51 have been amended to depend upon claim 66, thus all the remaining apparatus claims are dependent either directly or indirectly on claim 66.

In addition, method claim 43 has been amended to function as a method of using the rehabilitation system claimed in independent claim 66. To do this, limitations of claim 66 have been added into claim 43 to give claims 66 and 43 unity of invention. All the remaining pending method claims have been amended to be dependent directly or indirectly on claim 43.

Thus, the Applicant believes claims 27-67 should be examined.

Applicants reserve the right to file, at a later date, additional divisional applications claiming priority from the present application which are directed to the non-elected Groups.

Respectfully submitted,
